

Project reference (name/code)											Project location closest to the source of the emissions. Coordinates in degrees to the fourth decimal place		National Projekt, CDM Projekt or MS Projekt
Status: Validation/Verification	Application Number	Supply chain (gas or oil)	Applicant	Unique number of validation/Verification report	Start date (after 1 Jan 2011) (dd_mm_yyyy)	Annual emission reduction (Expected if status validation) (t CO ₂ eq)	Date of positive decision	Emissions of Project claimed (only Verification status)	Latitude	Longitude
